Address: Johar Town, Lahore, Punjab, Pakistan

Profile

I am a motivated Front-End Developer with over a year of hands-on experience building responsive and dynamic websites. Proficient in HTML, CSS, JavaScript (ES6/ES7), and React.js, I specialize in creating user-friendly and efficient web applications. I have a strong command of React concepts like components, hooks, routing, and state management using Redux. Skilled in styling frameworks like Bootstrap and Tailwind CSS, I excel at crafting visually appealing and mobile-first designs. With a solid understanding of API integration and performance optimization, I am committed to delivering seamless and engaging user experiences while staying updated with modern front-end technologies.

Skills

Languages: HTML, CSS, JavaScript

Frameworks/Libraries: React.js, Bootstrap, jQuery, Tailwind CSS, Redux. **Tools &**

Platforms: Git, GitHub, VS Code, npm, Vite, Webpack, Babel, Axios, GraphQL.

Others: RESTful APIs, Responsive Design, Cross-Browser Compatibility.

Experience

Front-End Developer: Code Lounge (Jan 2024 – Present)

- Developed and maintained web applications using React.js, CSS, and JavaScript.
- Implemented responsive designs and ensured compatibility across devices and browsers.
- Utilized Bootstrap for building responsive, mobile-first, and visually appealing UI components.
- Leveraged Tailwind CSS for utility-first styling, enabling maintainable and scalable designs.
- Integrated RESTful APIs to fetch and display data, collaborating effectively with backend teams.
- Optimized application performance through state management using Redux and React hooks.

Projects

Technologies Used: React.js, ES6, JavaScript, HTML, CSS, Bootstrap.

Designed and developed multiple projects and a personal portfolio showcasing projects and skills.

Education

Bachelor of Computer Science (BSCS).

GC Lahore (GCUL)

(2018 – 2022)

Certifications

React - The Complete Guide (incl Hooks, React Router, Redux) (EVS-Lahore)
