Profile

I am a motivated Front-End Developer with 1 year of hands-on experience building responsive websites. Proficient in HTML, CSS, JavaScript, and modern frameworks like React.js and Next.js, I specialize in creating dynamic applications. I have experience using Next.js for server-side rendered (SSR) and statically generated websites, improving performance and SEO. Skilled in using Bootstrap for rapid UI design and Tailwind CSS for custom, utility-first styling. I have a strong understanding of React hooks, components, routing, and state management, and am passionate about delivering seamless, user-friendly web experiences

Skills

Languages: HTML, CSS, JavaScript

Frameworks/Libraries: React.js, Next.js, Bootstrap, Tailwind CSS, Redux, jQuery

Tools & Platforms: Git, GitHub, VS Code, npm, Vite, Webpack, Babel, Axios, GraphQL.

Others: RESTful APIs, Responsive Design, Cross-Browser Compatibility.

Experience

Front-End Developer: Code Lounge (**Jan 2024 – Present**)

- Developed and maintained web applications using React.js, Next.js, HTML, CSS, and JavaScript.
- Implemented responsive design and ensured cross-browser compatibility across various devices and browsers.
- Utilized Bootstrap for building responsive, mobile-first, and visually appealing UI components.
- Leveraged Tailwind CSS for utility-first styling, enabling highly customizable and maintainable designs.
- Developed server-side rendered (SSR) and statically generated websites using Next.js, improving performance and SEO.
- Integrated RESTful APIs to fetch and display data while collaborating with the backend team to ensure seamless integration.

Projects

Technologies Used: React.js, Next js, Java Script, HTML, CSS, Bootstrap.
Designed and developed multiple projects and a personal portfolio for projects and skills.

Education

Bachelor of Computer Science (BSCS).
Government College University Lahore (2018-2022).

Certifications

React - The Complete Guide (incl Hooks, React Router, Redux) (EVS-Lahore)
